

BALI

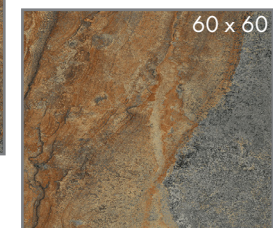

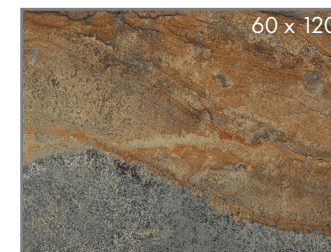

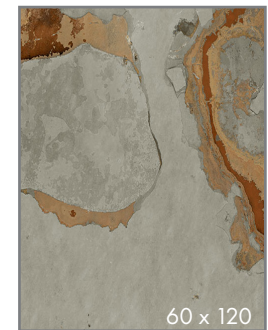

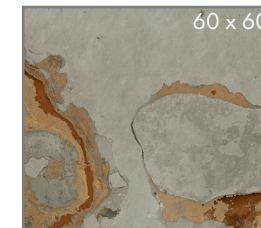

2 colours - 2 sizes - 2 finishes

Product Type: Stone effect tile

Colours: Polychrome, Light green

Sizes: 60 x 90, 90 x 90

Finishes: External

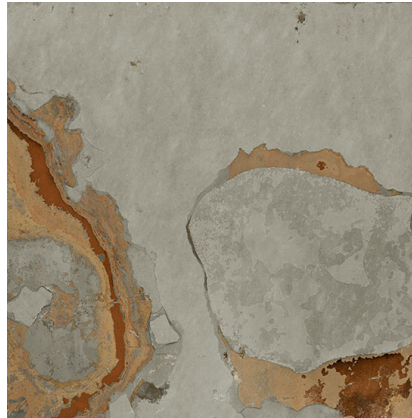

Its striking, uneven graphics offer a fresh take on slate with a dense material effect for stone-effect tiles. With its colour contrasts ranging from white to yellow, from red to brown, from grey to green and rust, Bali has all the deepest colours of the Earth. Bali is ideal for use in swimming pools and outdoors: for this specific use, it is available with an antislip surface, in addition to the regular indoor version. An exceptionally shiny crystalline effect, particularly when used on the bottom of swimming pools: deep turquoise, green and shaded blue reflections offer the elegant, exotic atmospheres of the world's most beautiful islands.
